## From WikiLeaks

Jump to: [navigation](#), [search](#)

2009's Most Wanted Leaks—the concealed documents or recordings most sought after by a country's journalists, activists, historians, lawyers, police, or human rights investigators.

Help us clarify and background the nominations so we can discover which are significant and which are not. You may securely and anonymously add information to this page for each entry (click "edit" next to each country).

WikiLeaks will prioritize the list based on the available information and seek to obtain the leading candidates directly, through the legal system, or indirectly through our network of journalists, intelligence sources, volunteers and readers. If you email us ([wl-editor@ljsf.org](mailto:wl-editor@ljsf.org)) we will alert you when the record has been obtained.

The current order reflects the order of submission and is unlikely to be related to the final order.

Winners for each country will receive a cash prize upto 1000 EUR, depending on how many countries submit.

Documents or other materials added nominated must:

- Be likely to have political, diplomatic, ethical or historical impact on release
- Be known to exist or have existed.
- Be plausibly obtainable to a well motivated insider or outsider. For instance the entire collection of documents held by the Chinese Ministry of Public Security (中华人民共和国公安部) is not plausibly obtainable, but a specific document or group of documents may be.
- Be well defined, and if possible, specific. Three examples of *well defined and specific*:
  - [Inquiry into the Treatment of Detainees in U.S. Custody, 20 Nov 2008.](#)
  - [East Timor Presidential assassination intelligence intercept map 2008.](#)
  - [Camp Delta Standard Operating Procedure \(2004\).](#)

An acceptable example, which is *known to exist* and *well defined*, but not *specific*:

- The current list of websites or URLs filtered by the Chinese Public Security Bureau's "Great Firewall of China" censorship system.
- Be described in enough detail so that a court, dissident insider or visiting outsider not already familiar with the material or its subject matter may be able to quickly locate it, and will be motivated to do so.
- Should, where possible, list all organizations, locations and/or websites suspected of holding the material or having information about how to access it.

Be attentive to the content of your nomination. Do not worry about making formatting mistakes. All copies of this page are kept and reviewed.

In the rare cases where a document might be destroyed or vaulted if it appeared on this list, send your nomination privately to [wl-editor@ljsf.org](mailto:wl-editor@ljsf.org) or securely via [Chat](#).

## International organizations

- Bilderberg Group meeting minutes, papers and annual reports of since 1954. WikiLeaks has *some years already*. Bilderberg is an annual off-the record conference of transatlantic political, economic and ideological agenda setters. As an historically important confidential document collection it is probably only equaled by Cabinet minutes and high level intelligence and diplomatic assessments. Leads: There are some older, previously unnoticed records in boxes at Uni of Illinois <http://www.library.illinois.edu/archives/uasfa/1535051.pdf> (1956-1970) the George Bush library,

  - Any and all communications between filter vendors and government departments prior to, during, and after the trials
  - Any and all transactions, contracts, and other financial arrangements involving filter vendors
- URL blacklist(s) used during above trials. Alleged (by government) to be ACMA URL blacklist.

- Speed Camera contractors - in particular -
  - Revenue derived from contractors privately operating speed cameras
  - The amount and value of incentive/bonus payments or kickbacks paid to these contractors for every ticket issued
  - Details of the shady (often verbal) fine "quotas" issued to the staff operating the cameras
  - Details of training, guides and or manuals given to camera operators and their management
  - Any documentary evidence explaining why operators persist in operating cameras in violation of police camera policy (ie, less than 200 metres from a speed zone change, using forged calibration certificates (for instance the elusive Mr Burden who works in the non-existent department of communications at RMIT, and seems unable to sign his own signature the same way twice), using illegally modified or concealed speed cameras, operating near known sources of reflection or interference which will have the effect of increasing the incidence of "over-reading" resulting in more fines being generated)
  - Any memos or documentary evidence of compliance between court officers and speed camera prosecutors explaining why courts keep ruling in favour of often cut and dry cases that should have been otherwise dismissed
  - Details, memos and reasons why tax payer funded prosecutors are supplied free of charge to often known shady camera contracting companies
  - Details, memos or other documentary evidence that explains why costs are always offered or awarded to the prosecutor, and contrary to law denied to the defendant even when they win a case.
  - Details of any links between camera contractors banned from operating cameras due to fraud, and puppet companies who pick up their entire fleet and work force overnight and continue to illegally operate them. (for example what is the Tenix and Serco relationship)
  - What the revenue raised by these cameras is actually spent on; and what percentage is actually used in any sort of road safety initiatives.
  - Details of speed related accidents and deaths that occurred on speed camera sites
  - Details of the number of fines issued to deceased people who would have otherwise been alive had the site been operated by a police officer who pulled them over instead of covertly taking a photo of them
  - Any proof that speed contractor witnesses are often illegal unattributed "proxies" specially coached for giving testimony and committing fraud
- Details of anti-spam systems that are abused to automatically block or disconnect users and companies internet/websites (ie Denial of service, corporate/financial sabotage,) when they have not actually been spamming. (eg, deliberately add a companies email to hundreds of spam lists, until they start generating bounce messages, then report them for spamming to take them off the internet possibly even putting them out of business as a result)

Detail:

### PLAN VICTORIA AND PLAN SOFIA\*

in the process of trying to bring military personal involved in human rights violations and massacres that happen during the civil war in Guatemala to justice, the military have been required to declassify many war documents. In a case, that went all the way to the Supreme Court of Guatemala, the Court dictated a sentence that confirmed the obligation of the Ministry of Defense of Guatemala to hand over the official documentation of four specific military operations: Campana Sofia 82, Victoria 82, Firmeza 83 and Operacion Ixil. The Supreme Court sentence indicated that this achieves had to be declassified and made public yesterday.

These military operations were carried out in the 80s. According to the CEH, Historical Clarification Commission of Guatemala final report contained in "Guatemala: Memory of Silence", these military operations resulted in massacres and severe human rights violations.

The Minister of Defense Abraham Valenzuela only delivered partial information about plans Victoria 82 and Firmeza 83, two of the four requested plans. He indicated that he had no knowledge of the other two plans before he became Minister of Defense and that he ignores where the documentation could be. He stated that he could not deliver the complete plans "Victoria 82" y "Firmeza 83" because certain information was considered state secret and a concern of national security.

- "Plan Sofia" a derivative of "Plan Victoria 82", was of special concern to

human rights activists; this plan was conceived in July 1982, four months after General Efraim Rios Montt came into power. \*

- SO WE WILL REALLY LIKE TO OBTAIN THE COMPLETE DOCUMENTS OF PLAN VICTORIA

### 82, PLAN SOFIA AND PLAN FIRMEZA 83\*

- CEH ARCHIVES\*

The United Nations' Historical Clarification Commission (CEH) for Guatemala issued a report where the US government and several American corporations were accused of complicity in the genocide of nearly 200,000 Mayan people during Guatemala's bloody 36-year civil war. The final 3,600-page CEH report clearly places the blame for most of the 200,000 deaths on the 'racist' policy of the Guatemalan government and holds the country's military and paramilitary forces responsible for the actual killings, tortures and disappearances.

However, it accuses the US of directly and indirectly supporting a 'fratricidal confrontation' by providing sustained training, arms and financial aid. The report is based on the testimony of 9,200 people from all sides of the conflict and other documents\*, classified and Secret, protected in the UN headquarters in NYC.\* The CEH investigated 42,000 human rights violations, 29,000 of which resulted in deaths or disappearances and therefore, the documents under UN custody are fundamental for the prosecution of those responsible of the crimes.

- GUATEMALA, SWITZERLAND AND CANADA\*

A Canadian corporation named Goldcorp has a mining operation in Guatemala with poor environmental conditions and harming health of many workers and a community as a whole. We will like to know:

- Where the Gold they extract is processed.
- Who is buying the gold (we think it might be a Swiss company)

## Kenya

- The international investigative firm Kroll associates produced at least four reports on high level Kenyan corruption after first term of the Kibaki government. A draft version of one of the reports The Looting of Kenya, was previously published by WikiLeaks. The reports were given to selected members of President Kibaki's cabinet at the time and are likely still held by <http://www.kroll.com.uk/>, notably lead investigator Andrew Marshall.

## Libya

- Documents indicating arrangements with the Sudanese government to grant land in Darfur to Arab settlers from Libya (Civilians and administrators on the ground in Darfur indicate this has been taking place).

Both sides of the political conflict in Madagascar are crying foul about the deals made by their counterparts with foreign entities. The release of the official documents with respect to contract negotiations about:

- Oil exploitation in the region of Bemolanga ( South of Madagascar) by Total & others

## México

- Zapotec indigenous people demand transparency from U.S. Scholar and full disclosure of all the agreements between U.S. Government and their agencies and U.S. geography scholar Peter Herlihy, especially confidential agreements with Foreign Military Studies Office. Prof. Herlihy failed to mention that he received funding from the Foreign Military Studies Office of the U.S. Armed Forces on the research of "México Indígena" project. Mexico Indígena Project forms part of the Bowman Expeditions, a more extensive geographic research project backed and financed by the FMSO, among other institutions. The FMSO inputs information into a global database that forms an integral part of the Human Terrain System (HTS), a United States Army counterinsurgency strategy designed by Foreign Military Studies Office and applied within indigenous communities, among others.

## Puerto Rico

- The FBI has not yet finished declassifying all the secret files related to surveillance of Puerto Rican individuals and organizations from the 1930-70's <http://www.pr-secreffiles.net/index.html> (not to mention, large sections of the files are blacked out by the FBI). In addition, there are thousands of secret files produced by Puerto Rican police that were only briefly made available to individuals themselves, and have now been closed off to the public. These documents provide evidence of quite a significant spying and intimidation operation by the United States and local police against leftists and independence movement leaders.

## Trinidad and Tobago

- Documents in relation to payments of attorneys by state. Numbers of these payments are being kept secret from the public.
- A copy of the contract for the billion-dollar Waterfront Development Project.
- List of recipients and amounts of scholarships sponsored by Ministry of Culture for study abroad.
- Report of the findings of the current *Commission of Enquiry into the local construction sector*

### Detail:

As far as Trinidad and Tobago goes, our government tends to pay lip service to the principles of transparency and accountability. For instance, there is a Freedom of Information Act which, by law, allows the public to seek information from government departments. But quite often, when such attempts are made by the citizenry, the government bars full disclosure. Depending on how important a piece of information is to Joe Public, he may actually have to turn to the courts to "force" the government to reveal facts that should be disclosed voluntarily. Following are a few examples of

documents that should be made public, but have not been:

- The Report on the Commission of Enquiry into the construction of the new Piarco Airport This identified corrupt practices in the spending of public funds. The Commission's report was delivered in August 2003. Nearly 6 years later, its findings have not been made public.
- The Report on the Caroni Bridge Collapse. A man was killed when a bridge collapsed a few years ago; again the public has not been made aware of the report's findings.
- The Opposition recently brought up in Parliament the issue of taxpayers' money being used to pay attorneys by state. Although the public has a right to know how much of its funds were used in paying said attorneys, the Attorney General refused to disclose the sums, saying it would be an invasion of the lawyers' privacy
- The same goes for a recent request in Parliament, whereby "the Minister of Planning and Development was asked to produce a copy of the contract for the billion-dollar Waterfront Development Project". The Minister's response was that she could not produce said contract for public discussion because there was a confidentiality clause contained therein (for a project being built with public funds).
- The Ministry of Culture recently awarded scholarships for students to study abroad - when asked in Parliament to disclose the list of recipients and the dollar value of the scholarships, the response was that this was private information.

As such, many citizens are concerned that the findings of the current "Commission of Enquiry into the local construction sector", like many Commissions before it, will never see the light of day.

## Uganda

The government of Uganda has recently signed a number of profit-sharing agreements with several oil companies that are conducting explorations in southwestern Uganda. My friend was in Kampala in January and spoke with a number of journalists who believe that releasing these documents would be a major step in increased transparency with respect to the country's emerging oil industry.

  - With recent leak of 1999/2006 Church Handbook of Instructions, pertinent documents and covertly photographed artifacts in the vault at Church Office building or subsidy in Salt Lake City, Utah which expose and negate Mormon Church's claim of divinity and its monopoly on "truth," i.e. the concealed remnants of diaries and letters written by former early Mormon apostle William McLellin [7]. McLellin diary and documents was the main point of interest for convicted double murderer/bomber Mark Hofmann's planned forgery attempt to deceive Mormon leaders to obtain in fraud by deception monetary reward to suppress truth of early Mormon history unfavorable to current Mormon religion. For more info, [8].
  - Documents of Mormon Church's billion-dollar investment in City Creek Mall and Condominium in SLC, which may put Mormon Church's IRS tax-exempt status in jeopardy if there is verification of the allegation the Church used tithe and offering monetary contributions by the members to fund the project under the umbrella of tax-exempted religious freedom.
  - Mormon Church leadership's involvement in politics, such as correspondence to ecclesiastical subordinates (bishopric) on policy and attitude towards same-sex civil rights & other sensitive issues relevant and concerning to the leaders. As well as recorded correspondences between Mormon members of Utah legislation and Church leaders on sensitive political issues for legislation purposes which may contravene the separation of church and state.
  - Uncovered film or audio recording featuring the play with the actor portraying Protestant minister encouraged by Satan/Lucifer (portrayed by actor) to spread false doctrines to attack all religions outside of Mormon religion as "abominable" which was exhibited for qualified "temple recommend" audiences in all of the existing temples prior to removal in 1990 (almost like leaked Scientology orientation video) [9].

- Unearthed secret audio or video recording inside Mormon temple with the temple members swearing "blood oath" before removal in 1990. [10]
- Documented Church leaders' and lay clergy's cover-up of physical/sexual abuse and rape of minors by missionaries and members without reporting to law enforcement in some cases [11].
- Older editions of Church Handbooks of Instructions from the first edition up [12] for comparison to recent leaked 1968 (truncated), 1999 and 2006 editions.
